

## Progression Steps Explained

Since September, Caergeiliog Foundation School has fully implemented the New Curriculum for Wales. With this, the assessment of your child's learning has changed from Outcomes and Levels to Progression Steps. These steps are a continuum of learning from ages 3 to 16, with reference points at ages 5, 8, 11, 14, and 16. The progression steps are a series of achievement outcomes that are broad expectations of learning over two to three-year periods. Progression is not a linear process, but a road map for each individual child. The Progression Steps will help learners, teachers, parents, and carers understand if appropriate progress is being made.
