

YSGOL CAERGEILIOG FOUNDATION SCHOOL

The School's Policy on 'Promoting Positive Mental Health'.

Mission Statement

At Caergeiliog Foundation School we promote a caring, supportive environment in which each individual is valued and respected. We have high expectations for all and aspire to achieve excellence.

We recognise that all children and young people need the foundation of positive mental health to benefit fully from all of the opportunities available to them.

Everyone experiences life challenges that can make us vulnerable. At times, anyone may need additional support to maintain or develop good mental health.

- 1 in 10 children and young people aged 1 – 15 years have a clinically recognisable mental disorder in any one year
- 1 in 4 adults will experience mental health difficulties; at least half of these difficulties can be traced back to childhood

The mental health of children and young people, adults in schools, parents and carers and the wider whole school community will impact on all areas of development, learning, achievement and experiences.

All children and young people have the right to be educated in an environment that supports and promotes positive mental health for everybody. All adults have the right to work in an environment that supports and promotes positive mental health for everybody.

Caergeiliog Foundation School recognises these needs and rights and is committed to:

- raising awareness,
- increasing understanding
and
- ensuring that the School makes a difference by providing a place where all children and young people feel

- safe,
- secure
and
- able to achieve and experience success and well-being.

Consequently, the School strives to offer a learning environment that promotes and enhances positive mental health.

It also ensures a consistent approach which means that the School environment and School ethos all promote the mental health of the whole school community.

The School recognizes that healthy relationships underpin positive mental health and have a significant impact.

It therefore strives to secure a mentally healthy environment which has:

- Contributes towards the ethos of the school

A healthy learning environment provides opportunities that promote positive mental health, through the standard curriculum and extended provision, e.g. Circle Time, SEAL, play, nurture groups, differentiated learning activities, individual timetables, parents/carers groups, challenging stereotypes, etc.

The implementation of this Policy for promoting positive mental health will:

- give the School a cohesive and co-ordinated approach to mental health
- underpin all policies and practices currently used in the School
- raise awareness as to how the whole school community can look after its own mental health and that of others
- help to de-stigmatise mental health
- support people and provide opportunities that enable everyone to reach their potential
- strengthen relationships and provide opportunities for different ways of working
- provide foundations for life-long learning
- promote and strengthen resilience throughout the whole School community and empower everyone to face life's challenges

This policy promotes positive mental health. It is a working document and has been developed in consultation with the whole School community.

This Policy offers opportunities to measure the impact in a variety of ways:
